About Grassi and Grassi

We are dentists specializing and limiting our practice to performing root canal treatments (endodontists). Grassi & Grassi P.C. have been in practice for thirty-nine years. Our unblemished record of care and commitment is the foundation of our success.

Expertise

Advanced surgical and nonsurgical skills are necessary to qualify a dentist for Endodontics. This makes them uniquely qualified to treat the routine and complex cases each individual patient presents. After attending a qualified dental school, a dentist wishing to specialize in Endodontics attends a two or three year advanced dental school program. This intensive education prepares them to perform the very best in Endodontic procedures. Additionally, they continue to update and manage their training after entering into practice to keep knowledgeable about state-of-the art procedures and technology.

Patient Care

The Endodontic practice of Grassi & Grassi P.C. is an office of heartfelt gentleness and excellence. We pride ourselves on caring for our patients by putting patient care first in our goals. Your needs come first at Grassi & Grassi. Staff members are long standing and each is personable, with a genuine understanding of your concerns.

Our Practitioners

When you visit our office, you will find a dedicated staff of professionals using the latest procedures and cutting edge technology to care for you. Our doctors are deeply involved in local activities, also. Please review the detailed backgrounds of our caring practitioners below.

Dr. David Grassi received his Dental Degree and certificate in Endodontics from SUNY Buffalo School of Dental Medicine. He belongs to many local and national dental organizations. He is one of the founding partners of Grassi and Grassi, P.C. Dr. Grassi has over 30 years of dental experience and uses his great sense of humor to put his patients at ease.

Dr. John De Angelo graduated from New York University School of Dental Medicine. After graduation, he completed a two-year general practice residency at Nassau County Medical Center where he also completed his Endodontic training. He joined Grassi and Grassi, P.C. in 1982 and he has been a partner for many years. Dr. DeAngelo is a Board Certified Endodontist and belongs to many local and national dental organizations.

Dr. Michael D. Grassi received his Dental Degree from SUNY at Buffalo School of Dental Medicine and completed both his residency in Endodontics and his Masters Thesis at the University of Pittsburgh School of Dental Medicine. Dr. Grassi is a Board Certified Endodontist, a fellow of the American College of Dentists, the International College of Dentists and the Pierre Fauchard Academy. He is the Section Head in Endodontics for the Eastman Department of Dentistry as well as an Assistant Professor at the University of Rochester School of Medical Dentistry. In addition, he is a clinical Assistant Professor at SUNY at Buffalo School of Dental Medicine and is a consultant in the Dental Department at St. Mary's Hospital and Park Ridge Hospital. He served as Past President of the Monroe County Dental Society, Rochester Dental Study Club, and the Apollonian Dental Study Club. Presently, he is the President of the Seventh District Dental Society.

Dr. Mary Chris Meyer received her Dental Degree from Harvard School of Dental Medicine and received her Endodontic Certificate at Tufts School of Dental Medicine. While in Boston, Dr. Meyer was a clinical instructor of Endodontics at Harvard and Tufts. She has been published in the Journal of Dental Research and the Journal of Dental Education. Dr. Meyer is board eligible and is at ease using the latest technology and developments in endodontics.
